## **N(2220) DECAY MODES**

The following branching fractions are our estimates, not fits or averages.

| Mode                 | Fraction ( $\Gamma_i/\Gamma$ ) |
|----------------------|--------------------------------|
| $\Gamma_1 N\pi$      | 10–20 %                        |
| $\Gamma_2 N\eta$     |                                |
| $\Gamma_3 \Lambda K$ |                                |

## N(2220) FOOTNOTES

<sup>1</sup> See HOEHLER 93 for a detailed discussion of the evidence for and the pole parameters of  $N$  and  $\Delta$  resonances as determined from Argand diagrams of  $\pi N$  elastic partial-wave amplitudes and from plots of the speeds with which the amplitudes traverse the diagrams.
