Non-$q\overline{q}$ Candidates

NODE=M201

OMITTED FROM SUMMARY TABLE

NODE=M201

For a review on gluonium and other non-$q\overline{q}$ candidates see PDG 06, Journal of Physics **G33** 1 (2006). See also the "Note on scalar mesons" in the $f_0(500)$ Particle Listings, our note "New charmonium-like states" in PDG 08, Physics Letters **B667** 1 (2008), and the extensive chapter on Spectroscopy in N. Brambilla *et al.* (Quarkonium Working Group), The European Physical Journal **C71** 1534 (2011).
