

Please send corrections or additions to the address above or to  
pdg@lbl.gov.

#### WORLD-WIDE WEB

This list can be accessed via our WWW page:  
<http://pdg.lbl.gov/information.html>  
For other lists of WWW home pages for HEP-related institutions:  
CERN: [http://web1lib.cern.ch/Home/HEP\\_Institutes](http://web1lib.cern.ch/Home/HEP_Institutes)  
SLAC: <http://www.slac.stanford.edu/spires/inst>  
Texas: <http://www.utexas.edu/world/univ/state/>

For a copy of the more extensive CERN list of addresses, write to:  
List of Addresses of High-Energy Physics Institutes  
Scientific Information Service  
CERN, European Laboratory for Particle Physics  
CH-1211 Geneva 23, Switzerland

#### LONG DISTANCE DIALING

- For dialing long distance **outside** the country, dial the exit code of the country **from** which you are dialing, followed by the entrance code of the country to which you are dialing, followed by the area code. Example: to call Geneva, Switzerland from London, England, dial 00-41-22 plus number.
- For dialing long distance **inside** a country, dial the area exit code followed by the area code. Example: from inside Switzerland, to call Geneva from Zurich, dial 0-22 plus number.
- Numbers in parentheses are area codes. Spaces between digits are for easier reading and have no significance.
- Exit, entrance, and area exit code numbers are found on the line after the country name, at the head of each country's listing.

#### UNIVERSAL TIME

Numbers in square brackets [ ] are the numbers of hours that must be added **algebraically** to local time to obtain Greenwich (Universal) time. Cities with negative numbers lie to the east of Greenwich, England; cities with positive numbers lie to the west. To calculate the number of hours between any two cities, subtract the two numbers **algebraically**. The city with the smaller algebraic number has the later time. (In general, Asia is later than Europe is later than the eastern United States is later than the western United States.) Daylight savings time variations may cause all calculations to be off by an hour.

#### NETWORK NODES

Note: Internet node addresses are being phased out and replaced by WWW addresses (see above). If you do not have a WWW URL, we include your Internet node addresses for e-mail. Institutions can have their nodes or URLs added to this list by sending a message to Gail Harper (see above). Please send **ONLY** Internet addresses as we do not add any others.

E-mail addresses for individuals, not included in this list, can often be acquired:  
1) via the Web: <http://www.slac.stanford.edu/spires/hepnames>  
2) by sending a request to postmaster at a node
