\[ E^{2.6} F(E) \text{ [GeV}^{-1.6} \text{ m}^{-2} \text{ s}^{-1} \text{ sr}^{-1}] \]

The graph shows the energy distribution of high-energy cosmic rays, with markers for various experiments including HAWC, MSU, Tibet, Akeno, CASA-MIA, KASCADE, KASCADE Grande, IceTop, HiRes 1, HiRes 2, Auger, and Telescope Array. The graph highlights the knee, 2nd knee, and ankle features of the cosmic ray spectrum.
