Mesons

π, η	D.E. Groom, C. Grab, C.G. Wohl*
Unstable mesons	M. Aguilar-Benitez, C. Caso, S. Eidelman, J.J. Hernández, L. Montanet, F.C. Porter, M. Roos,* N.A. Törnqvist
K (stable)	C. Grab, T.G. Trippe*
D (stable)	R.J. Morrison, R.H. Schindler, C.G. Wohl*
B (stable)	R.J. Morrison, R.H. Schindler, T.G. Trippe*

Baryons

Stable baryons	C. Grab, R.H. Schindler, C.G. Wohl*
Unstable baryons	R.L. Crawford, G. Höhler, D.M. Manley, C.G. Wohl*, R.L. Workman

Miscellaneous searches

Quark & monopole	D.E. Groom,* J. Stone
Supersymmetric	R.M. Barnett,* K. Hikasa, H. Murayama, K. Olive
Compositeness	K. Hikasa, T.G. Trippe*
Other	K. Hikasa, T.G. Trippe*

Reviews, tables, figures, and formulae

R.M. Barnett, D.E. Groom,* T.G. Trippe, C.G. Wohl

Technical support

B. Armstrong, K. Gieselmann, P. Lantero, G.S. Wagman

We have also relied on the expertise of the following people for advice on particular topics:

- L. Addis (SLAC)
- M. Artuso (Syracuse University)
- V. Balakin (Novosibirsk)
- V.I. Balbekov (Serpukhov)
- T. Barnes (University of Tennessee)
- O. Beibel (RWTH, Aachen)
- D. Besson (Cornell University)
- S. Bethke (RWTH, Aachen)
- V. Bharadwaj (Fermilab)
- S. Bilenky (Joint Inst. for Nuclear Research, Dubna)
- M. Billing (Cornell University)
- G. Brianti (CERN)
- E. Browne
- J.N. Butler (Fermilab)
- R.N. Cahn (LBL)
- M. Chanowitz (LBL)
- A. Chao (SSC)
- Z. Chuang (IHEP, Beijing)
- E.D. Commins (University of California, Berkeley)
- COMPAS Group (IHEP, Serpukhov)
- O. Dahl (LBL)
- R.H. Dalitz (Oxford University)
- J. Donoghue (University of Massachusetts, Amherst)
- J. Dorfan (SLAC)
- S. Ecklund (SLAC)
- J. Ellis (CERN)
- J. Erler (University of Pennsylvania)
- L. Evans (CERN)
- V.V. Ezhela (Serpukhov)
- W. Fetscher (ETH, Zürich)
- V. Flaminio (University of Pisa)
- R. Flores (University of Minnesota)
- W. Frazer (University of California, Berkeley)
- S. Freedman (LBL and UC, Berkeley)
- R. Frosch (ETH, Zürich)
- A. Garren (UCLA)
- J. Gasser (University of Bern)
- S. Geer (Fermilab)
- H.-J. Gerber (ETH, Zürich)
- F.J. Gilman (SSC)
